INTRODUCTION

Founded in 2017, JUN WEI Technology Co. Ltd. has established itself as a key player in the Industrial, Marine, Energy, and Construction sectors, serving both Mainland and international clients. Headquartered in Shanghai, China, we are dedicated to providing cutting-edge solutions to our global clientele with a focus on production, service, and operational excellence.

Our mission is to foster industry growth through advanced technology, sustainable practices, and unmatched customer satisfaction. Our portfolio spans the oil and gas, industrial, and energy sectors, enabling us to deliver superior performance, reliability, and safety.

OUR SERVICES

1. SUPPLY CHAIN MANAGEMENT.

- **Procurement & Sourcing:** Securing high-quality materials and resources from reliable suppliers to meet project demands.
- **Logistics & Transportation:** Managing the movement of goods and materials efficiently, ensuring timely deliveries across regions.
- **Inventory & Warehousing:** Optimizing inventory levels and providing storage solutions to meet the needs of clients without delays.

2. FACILITY AND TRANSPORT MANAGEMENT:

Client transport service: These services are designed to help businesses manage the movement of Client employees, temporary workers, or contractors to and from job sites, offices, or various locations. Staffing transport services are especially important for industries with large or dispersed workforces, such as construction, manufacturing, healthcare, or logistics.

- **Employee & Contractor Transport:** Providing safe and reliable transport solutions for employees and contractors to job sites.
- **Fleet Management & Maintenance:** Overseeing the management, maintenance, and optimization of transport fleets for efficient operations.
- **Sustainability & Compliance:** Ensuring transport operations adhere to environmental regulations and promote sustainable practices.

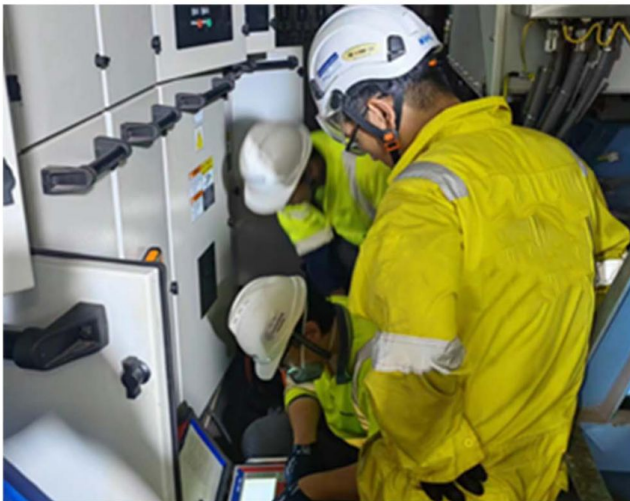

3. PAYROLL, VISA & RESOURCE MANAGEMENT SERVICES

- **Sustainability & Compliance:** Ensuring transport operations adhere to environmental regulations and promote sustainable practices.
- **Visa Application & Processing:** Managing work visa applications, documentation, and permits for international staff.
- **Immigration Compliance:** Ensuring compliance with immigration laws and managing visa renewals for employees.

- **International Relocation Support:** Assisting employees with housing, family visas, and settling-in services during international moves.
- **Recruitment & Talent Acquisition:** Sourcing and hiring talent, including screening and onboarding for both temporary and permanent roles.
- **Temporary & Permanent Staffing:** Providing staffing solutions tailored to business needs, from project-based to long-term employment.
- **Workforce Planning & Strategy:** Offering workforce forecasting, optimizing staffing levels, and developing talent pools to meet organizational needs.

4. PROJECT/SITE MANAGEMENT SERVICE

- **Project Planning & Coordination:** Managing the entire lifecycle of projects from initiation to completion, ensuring all goals are met.
- **Contractor & Team Management:** Overseeing contractor performance and coordinating team efforts to ensure timely and effective project delivery.
- **Risk Management & Compliance:** Identifying potential risks, ensuring compliance with industry standards, and mitigating hazards during project execution.

5. RESOURCE MANAGEMENT AND STAFFING SERVICES

- **Workforce Planning & Strategy:** Offering workforce forecasting, optimizing staffing levels, and developing talent pools to meet organizational needs.
- **Temporary & Permanent Staffing Solutions:** Providing flexible staffing options to meet fluctuating demands.

- **Legal & Regulatory Services:** Ensuring compliance with local labour laws, regulatory requirements, and safety standards in staffing.

6. INSTALLATION & COMMISSIONING SERVICES

- **Installation of Equipment and Systems:** Providing installation services for industrial equipment and complex systems.

- **Site Setup and Integration:** Ensuring seamless integration of new systems into existing site infrastructures.

- **System Testing and Validation:** Performing rigorous testing to validate the functionality and safety of newly installed systems.

- **Training for End-Users:** Offering hands-on training for staff to effectively operate new systems and equipment.

- **Ongoing Technical Support:** Providing continued support to troubleshoot and resolve any issues that arise post-installation.

7. INSPECTION SERVICES FOR INDUSTRIAL SECTORS

- **Material Testing (Non-Destructive Testing - NDT):** Conducting tests to assess material integrity without causing damage, using methods such as Ultrasonic Testing (UT), Radiographic Testing (RT), and others.

- **Structural Steel & Welding Inspection:** Inspecting the quality and safety of structural steel and welding work to ensure compliance with standards.

- **Power Station & Petrochemical Inspections:** Specialized inspections for power stations and petrochemical facilities to ensure safe operations.

- **Visual Inspection:** Performing thorough visual assessments to identify potential issues in equipment or installations.

- **E&I Inspection Service:** Providing expertise in electrical and instrumentation inspections, following international standards like COMPEX, ATEX, and IECEx.

- **Inspection of Hazardous Area Installations:** Ensuring that installations in hazardous areas meet safety and compliance standards.

- **Verification of Equipment and Wiring:** Ensuring that electrical and mechanical systems are correctly installed and functioning safely.

- **Inspection Test Report (ITR) & Mechanical Completion Inspection:** Generating detailed reports and certifying mechanical completions for regulatory compliance.

- **Risk Assessment:** Conducting assessments to identify risks and propose mitigation strategies for safe operation.
